"Who Else Wants To Get More Members...Increase Retention...and Convert More Prospects Into Members In Less Than 10 Minutes A Week Using One Strategy?"

If you struggle to get prospects and turn them into members then this could be the most important message you read all year.

From the Desk of Scott Whitaker,

I want to give you a formula that has kept me from losing hundreds of thousands of dollars over the past couple years alone. Furthermore, it's put money that would have gone to my competitors into my pocket.

Just last month I brought in seven new members worth over \$11,782 combined immediately. Their long-term value is likely to be in excess of \$100,000.

But I just as easily could have lost all this business if it weren't for "membership multipliers," and if interested, let you have for just \$97 (save \$100.00!)

These multipliers are strategies that I've spent countless hours testing and perfecting over the years and it's a strategy EVERY membership business should use, but few do.

And quite frankly if you're not using this 10-minute-a-week strategy, I GUARANTEE you're leaving thousands of dollars on the table, just lying there for your competitors to pick up.

But that's NOT your fault!

This isn't something you would probably know about. As membership business leader you're pretty much alone. You don't have someone there to guide you to success.

Someone there who you can pick up the phone and call who'll just hand you proven strategies to get new business.

Someone there who understands what it's like to have more time than money and in the time you have you're being pulled in fourteen different directions at once.

I've had a membership business for nearly 22 years and these "hidden-in-plain-sight" strategies didn't appear to me until just a few years ago. And since then I've gone through hundreds of rounds of testing and poured through dozens of books, courses and seminars to fine-tune it into what it is today...

...a strategy that takes me less than 10 minutes a week, but consistently and reliably brings in new members, increase retention and converts prospects into fully-engaged members EVERY SINGLE WEEK.

But as of now, because you took the time to read this, you now know there is a better way.

You can move away from **ADDING** and begin **MULTIPLYING** your membership.

- It's **one of the highest ROI activities in your business** (retention being the other)...
- It **engages & nurtures your current membership** by enabling you to do more (think about what you would be able to do for your members, if you just had the money to do it!)
- **It can be automated** so that month after month you'll know exactly what to do to get more members.
